Waukon Junction, Iowa.,

June 28, 1917.

Dr. L.H. Pammel,
Ames, Iowa.

Dear Dr. Pammel:

Your letters of the 19, 23, and 25 are received.

I will hold your check for Conservation dues until the 5 of July. Thanks for the check. I will have Miss Rasmussen send you a receipt.

I believe I will send some copies of our Conservation magazine to a number of the libraries of the state and possibly of other states.

I am glad to know that you will be at the meeting at Iowa City on Friday morning and that both you and Miss King will prepare papers for that occasion. I will write a note to Miss King.

I saw Mr. Orr at Waukon a few days ago. Have also written him about preparing a paper for the meeting. As soon as the weather is good I am going up to Lansing with him in order to look over some of the indian mounds found in that region.

I am very glad to receive the article on the plants of the proposed National Park. We have found a large number of the trees which you have listed. We have had some trouble in identifying some of the oaks. The boys are getting some good work up here.

We are having lots of rain but it has not interfered seriously with our work.

Very sincerely yours,

L. H. Pammel
